

HOW MUCH DOES eVOLUTION COST CUSTOMERS?

Overall costs are usually 20% to 60% lower than managing applications and servers using traditional methods. Costs for customers are fixed, with predictable monthly payments that are determined based on the number of users and the specific needs of the organisation.

APPLICATIONS ANYTIME, ANYWHERE.

Are you a small to medium-sized business looking to maximise the potential of technology and increase your competitive advantage? Would you like to achieve this goal and also reduce costs? If so, eVolution offers affordable technology solutions that work.

WHO IS eVOLUTION FOR?

eVolution is ideal for small to medium-sized businesses who have traditionally been unable to maximise the full potential of technology due to cost, infrastructure requirements and the need for IT management. From the delivery of a simple software application like Microsoft Office to full server outsourcing including file and print, backups, storage, email, anti-virus, anti-spam, remote access, disaster recovery and specialty application servers like Microsoft SQL and Microsoft Exchange, eVolution offers a full range of software applications and hosted services. eVolution offers fully customisable, dedicated support, to address any business and technology requirements.

Importantly, eVolution customers can access their data from anywhere in the world at any time securely via the internet. eVolution customers always have access to the latest versions of Microsoft software, eliminating the need for costly and disruptive upgrades.

WHAT IS eVOLUTION?

eVolution is an application service provider delivering a range of online hosted applications, customised dedicated servers and virtual servers for small to medium-sized businesses.

HOW DOES eVOLUTION WORK?

eVolution delivers turnkey solutions to small and medium-sized businesses often completely eliminating the need for a server or applications to be installed in the office. eVolution makes it possible for all businesses, no matter how small, to experience a full range of software applications and technology options.

WHAT HOSTED APPLICATIONS DOES eVOLUTION OFFER?

Hosted applications include:

- Microsoft Office (English/Spanish/French)
- Microsoft Exchange
- Great Plains
- Microsoft SQL Server
- Microsoft Project and Project Server
- Microsoft Visio
- QuickBooks

HOW ARE eVOLUTION SERVICES DELIVERED?

Customers can connect to eVolution using the internet, private circuits or VPNs. All communications are fully encrypted and secure. Services are delivered by eVolution via a Service Level Agreement that is among the best in the industry guaranteeing up time and availability. Small and medium-sized businesses can gain access to enterprise-class infrastructure and applications that were previously out of reach due to cost and complexity. Leveraging eVolution's unique offering can make these businesses much more competitive at greatly reduced costs.
